Countdown Feature (V2.1)

Features:

- Allows the user to schedule a countdown to occur at pre-determined times on all connected digital clocks in Wired, Wireless, and TalkBack Wireless systems.

- Easily set the digital clocks to count down using the master clock's built-in web interface

- Flexible applications: Count down between class periods, lunch breaks, shift changes, and more!

- Compatible with SMA 3000, SMA 6000, & NTP 8000 Master Clocks with at least four programmable relays

Ordering Information:

SMA 3000 Series Countdown Feature: SMA-000-CDOW-0
