

Buzzer for Large Digital Clock (V1.0)

Features:

- Clear, penetrating tone
- High sound pressure level
- Low power consumption

Specifications:

Connector Type:

Wire Leads (black wire: ground, red wire: single tone)

Decibel Level:

100 db/min*

Oscillation Frequency:

2.9KHz

Current Consumption:

30 mA**

Operating Voltage:

3-18 VDC

Ordering Information:

L-BUZZ-3300-1

*Measured in an open air environment

** (Buzzer is powered by the digital clock)

Rated Voltage:

12 VDC

Tone Type:

Single

Power:

Powered by the Large Digital Clock

Color:

White
