

## Sapling Prayer Clock - V1.2

### Features:

- High-quality, professional synchronized prayer clock - automatically adjusted for local & prayer times (after initial setup)
- Available with either 5 or 6 prayer displays
- Digital displays are available at 2.5" (6.35cm) or 4.0" (10.16cm) digit height
- Digital displays are available in Red (standard), Green, White, or Amber
- Sleek, stylish design in robust housing
- Wall mounted
- Easy to set and install
- Analog square clock presents local time, while digital displays present prayer times

### Highlights:

- **Network-Based Interface** - Available in either Wi-Fi or hard-wired network cable options allowing the clock to interface with the facility's internet
- **Customized Printed Label** - For the preferred city (or location) name of the square analog clock
- **Square Analog Clock Built-in Web Interface** - To easily configure the time zone offset, allowing the square clock to display local time depending on its geographical location (city)
- **Digital Prayer Displays' Built-in Web Interface** - To easily configure various settings, such as displaying the prayers in either a 12-hour or 24-hour format, setting the displays' brightness, etc.
- **Various Dial and Hand Styles** - The square analog clock is available in a variety of different dial and hand style options
- **Synchronized Clock System** - The Prayer Clock may also interface with a facility-wide Sapling synchronized clock system

## Sapling Prayer Clock - V1.2
