

SAPLING PREMIUM LARGE CLOCKS

Sapling Premium Large Clocks

DESCRIPTION

Sapling offers different types of synchronized clock systems with many styles, shapes, and design options to choose from. Sapling Large Clocks are our Premium Line, which incorporates high-end technology, feature-rich settings, outstanding quality, and an elegant design, all wrapped in durable casing engineered to last for many years.

Sapling Premium Clocks are offered for indoor or outdoor applications. The SLD Digital clocks are offered with super-high brightness LED displays. All clocks have five adjustable brightness levels and a built-in auto-brightness sensor for great visibility under different ambient light conditions.

A Sapling Premium Large Dual Faced Digital Clock shown outside of an airport.

Highlights

- ✓ Large sizes suitable for common areas or outdoor applications
- ✓ Indoor Clocks or IP66 rated Outdoor Clocks
- ✓ Various time signal synchronization options
- ✓ Remote user-friendly wireless setup & control
- ✓ Built-in web-interface
- ✓ 6 Digit Digital Clocks can alternate between time & date
- ✓ Robust and stylish casing
- ✓ Various powering options: 24 Volt or 110-230 VAC, PoE (for limited digital clock models)
- ✓ Adjustable brightness levels including a built-in auto-brightness sensor
- ✓ Available in Single Mount, Flag Mount, or Dual Faced Mounting options
- ✓ Different display colors for digital clocks
- ✓ Digital clocks can interface with a temperature sensor accessory or with an elapsed timer control panel

Sapling Premium Clocks allow users to program & monitor the clock wirelessly via a mobile device.

[Size Selection]

The Sapling SLD - Premium Large Digital Clocks are offered with 6.0" (15.24 cm), 9.0" (22.86 cm) & 12.0" (30.48 cm) digit heights with either 4 (00:00) or 6 (00:00:00) digits.

[Accessories]

TIME

TEMPERATURE

SAPLING TEMPERATURE SENSOR

Sapling Premium Large Digital Clocks may display room temperature by interfacing with a temperature sensor. The temperature on the clock can be displayed in either Fahrenheit or Celsius. The user can designate how long the time and temperature will be displayed. For example, the clock can alternate between showing time for 7 seconds and temperature for 3 seconds.

Temperature Sensor part number: **SLD-TEMP-000-0**

A Sapling Premium Large Digital Clock can interface with the Sapling Temperature Sensor and alternate between time & temperature.

[Accessories]

DOUBLE MOUNT HOUSING FOR
CEILING OR WALL MOUNTED DUAL
FACED CLOCK

FLAG MOUNT HOUSING FOR
CEILING OR WALL MOUNTED
SINGLE FACED CLOCK

[About Us]

The Sapling Company is a global leader in engineering and manufacturing advanced synchronized clock systems. We have earned a reputation both in the USA and international markets for our superior technology, quality and reliability.
