Zones:

3 zones 4 zones 5 zones 6 zones 7 zones

All zones the same style

Mix and match styles (Specify to your dedicated Sapling representative. Ex. One digital clock in the middle and four analog zones.)

**Technology:
Relevant only for existing Sapling Master Clock Systems**

The Sapling Time Zone Clock is an IP-based system. If you already have a Sapling Master Clock for either a 2-Wire Clock System or a Wireless Clock System, and would like to integrate your Time Zone Clock into your existing Sapling Synchronized Clock System, we can offer this option.

Please indicate what type of clock system you currently have and would like to base your Time Zone Clock system on:

2-Wire Clock System Wireless Clock System
