

Synchronized Clocks for Mental Health Facilities and Psychiatric Hospitals

Synchronized Clock Systems are used in many types of facilities and organizations, allowing employees and visitors to utilize an accurate time source, displayed by the synchronized clocks throughout the facility. This will maximize efficiency and productivity, eliminating any confusion caused by relays on different time sources (stand alone clocks, watches, etc.). In some facilities, a Synchronized Clock System is very important as it serves as the official facility time source to document events and dispensation of medicine. In addition, a Synchronized Clock System will automatically adjust for Daylight Saving Time (DST) so there is no need to send maintenance personnel twice a year to adjust all the clocks in the facility.

In Mental Health Facilities and Psychiatric Hospitals, additional concerns may arise. In some rooms clocks are needed, however, consideration is taken to minimize the risk of patients who might attempt to harm themselves or others with the use of different objects in the room. As such, attention is given towards what items are placed in these rooms.

When it comes to clocks, Sapling offers Synchronized Clocks in different shapes and sizes to choose from; however, in order to minimize the risk of patients and staff, many Mental Health Facilities and Psychiatric Hospitals choose our Flush Mounted Digital Clocks, where the body of the clock is installed inside of the wall so only the display is visible on the surface of the wall. The Flush Mounted Digital Clocks are offered with either 4-digits (00:00) or 6-digits (00:00:00) with a standard Red Display or the optional White, Amber or Green Display. Some facilities may prefer the use of analog clocks, and in this scenario, typically a clear dome cover is used over the clock in order to have a smooth surface area around it. Analog clocks are also offered in different sizes and design styles.

Our Team will be happy to consult and provide additional information about our Synchronized Clocks. Please feel free to contact us at: info@sapling-inc.com or call us at: [215-322-6063](tel:215-322-6063)
